Group Discussion

After reviewing the resource, what is one thing you'll take back to your building?

Consider how you will support educators to create positive teaching and learning environments incorporating the evidence-based practices.

1. Create Positive Teaching and Learning Environments

Design a Safe Environment

Establish Positive Connections

Develop Predictable Routines

Define and Teach Positive Expectations

Plan Relevant Instruction

Practices to Create Positive Teaching and Learning Environments

Establishing Positive Connections

Engage in purposeful communication with students and families

Build in regular opportunities for positive connection throughout the year

Use formal and informal approaches to learn about students and their learning histories, identities, and preferences

Authentically engage families as partners in learning

Be Safe	<ul style="list-style-type: none"> Keep hands and feet to self Tell an adult if there is a problem 	<ul style="list-style-type: none"> Protect your friends and family Don't talk back 	<ul style="list-style-type: none"> Stick up for your friends Don't back down Keep an eye out
Be Respectful	<ul style="list-style-type: none"> Treat others how you want to be treated Include others Listen to adults 	<ul style="list-style-type: none"> Do exactly what adults tell you to do Don't stand out Don't bring shame 	<ul style="list-style-type: none"> Text back within 30 seconds Be nice to friends' parents Share food
Be Responsible	<ul style="list-style-type: none"> Do my own work Personal best Follow 	<ul style="list-style-type: none"> Help your family out first Own your mistakes Share credit 	<ul style="list-style-type: none"> Have each other's backs Own your mistakes Check in about

Validate and affirm personal and cultural learning histories

Building Relationships: Thresholding/ Greeting students at the Door

Classroom Environment: We can't change everything but how can we set ourselves up for success

Classroom seating arrangements

Are you 'old school' when it comes to your classroom seating layout? Do you prefer small groups and clusters of desks, or an arrangement that leaves space in the middle? Or, maybe you like to mix it up and stay flexible. Here are just a few of the many (many) variations out there.

Desks in rows

Pairs in rows

The 'horseshoe'

The 'double horseshoe'

Clusters

Letters: the 'L', the 'T', and the 'E'

Creating Effective Classroom Environments Plan Template

Educators can download this template and create their own plan to implement PBIS in their classroom. The template includes opportunity to develop a classroom matrix, create lesson plans to teach expected behavior, script prompts or reminders for desired behavior, and plan praise and corrections.

Instructions:

- Review *A School Guide for Returning to School During and After Crisis* and *Effective Environments* Video
- Complete tables with your own information by deleting & replacing light blue example text. Consider either (a) developing separate plans for in-person & remote instruction or (b) including examples across contexts.

Positive Classroom Expectations Look Like, Sound Like, Feel Like In....

Expectations	Teacher-Directed Instruction	Small Group Activities	Independent Work	Transitions	...
1. Kind to self	• Use whole body listening	• Share your ideas	• Do your best	• Bring what you need to be ready for what's next	•
2. Kind to others	• Calm body & quiet voice	• Actively listen	• Calm body & quiet voice	• Quiet voice	•
3. Kind to environment	• Take care of your space	• Take care of your space & materials	• Take care of your space & materials	• Leave space better than you found it	•

Attach Lesson Plans that explicitly teach each expectation in each routine.

Plan high rate/quality of opportunities to respond (active engagement) for students.

Prompt Expected Behavior...	Prompt Examples:
...at the beginning of each activity	• "While I'm reading, you can be kind by keeping your body calm, voice quiet, tech muted, and eyes on me."
...prior to end of each activity	• "In 1 minute, we're going to do our next activity. Please be kind to your space by putting your materials away, sanitizing your space, and leaving it better than you found it."
...before each transition	• "Remember, as we walk, we will be kind by keeping our voices quiet and a 6' bubble of space around our bodies."

Give Specific Feedback ...	Praise/Correction Examples:
...for desired behavior (praise)	• "Wow, I like how you are being kind by helping your friend with her materials." • "Class, you are being kind to yourselves by being ready to learn...this is going to be a fun and important lesson."
...for undesired behavior (correction)	• "I see materials that are not put away. Group 1, please return to your area and show that you can leave the space even better than you found it." • "I see that not everyone has had a chance to participate in the group activity. Please mute after your turn and be sure you are kind and give everyone a chance to share their ideas."

Consider additional strategies to acknowledge or respond to student behavior.

Developing Predictable Routines

Establish a predictable schedule and clear procedures for each activity and transition

For each routine/procedure:

- Post steps to promote independence
- Teach explicitly
- Practice regularly and reteach frequently
- Provide specific feedback on student use

Arriving to the Classroom

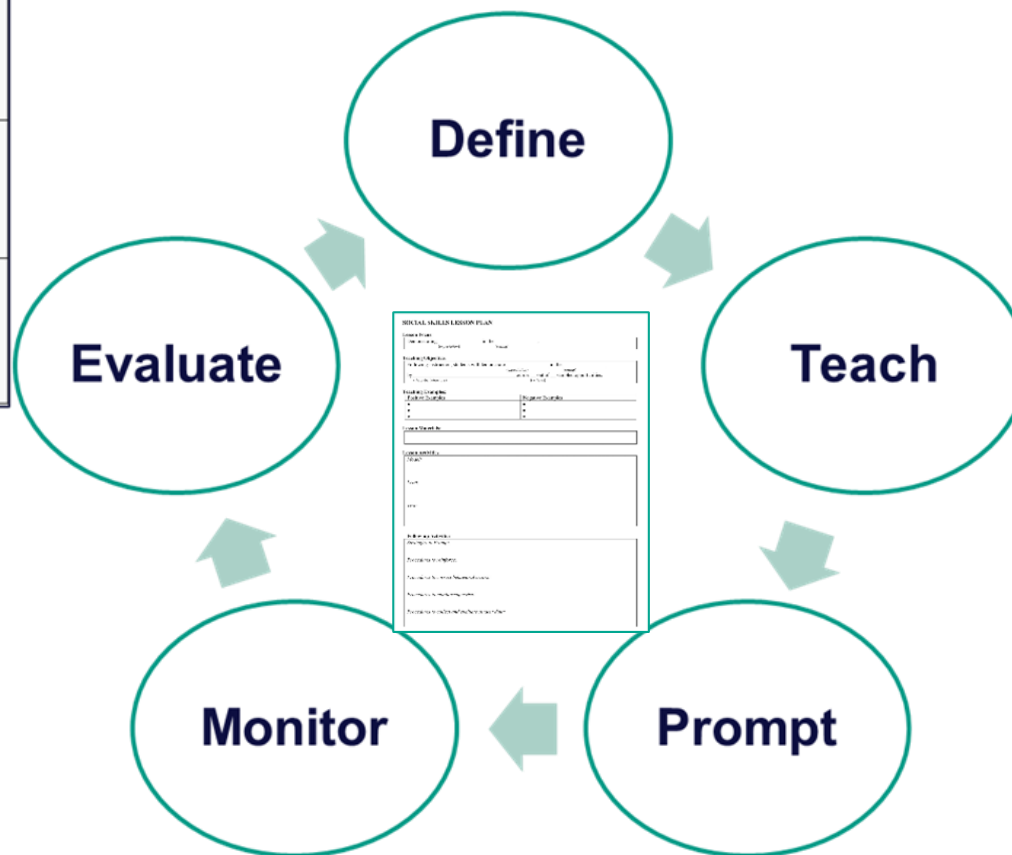

1. Enter the Classroom quietly
2. Take a seat at your desk
3. Get out your homework
4. Grab Classroom materials
5. Check the board for the warmup
6. Complete the warmup
7. Explain the agenda for the day
8. Review and correct warmup

Define and Teach Classroom Expectations

CLASS-WIDE Teaching Matrix		SETTING/ROUTINE				
		All Routines	Entering/ Leaving the Classroom	Small Group Instruction	Whole Group Instruction	Independent Work Time
SCHOOL-WIDE EXPECTATIONS	Respect Ourselves	Be on task. Give your best effort. Be prepared.	Walk.	Participate.	Engage with the lesson.	Have a plan. Study, read, compute.
	Respect Others	Be kind. Hands/feet to self. Help/share with others.	Use normal voice volume. Walk to right.	Include others. Share equipment.	Raise your hand if you have something to share.	Whisper. Return books.
	Respect Property	Recycle. Clean up after self.	Pick up litter. Maintain physical space.	Bring necessary materials to the table.	Have necessary materials handy.	Return materials where you found them.

Self-regulation & Mindfulness

- The ability to manage one's emotions, behaviors, and thoughts in the face of external demands.
- **Mindfulness enhances self-regulation** by helping students become more aware of their emotions and reactions, allowing them to make thoughtful, controlled responses.

- Improved social skills
- Enhanced resilience
- Improved classroom climate
- Better sleep
- Increased empathy

Brain Science

Self-regulation exercises:

- Activates the **Prefrontal cortex**, which helps students regulate their focus and stay on task
- Activates the **Parasympathetic nervous system**, which leads to a reduction in anxiety and emotional reactivity
- Improves impulse control and emotional resilience

Breath & Movement Classroom skills

Top 10

Breathing

- Starfish breathing
- Butterfly breathing
- Color breathing
- Number breathing
- Word breathing

Movement

- Animal movement
- Hula hoop movement
- Shaking
- Freeze dance
- Chair yoga

Experiential practice

Starfish breathing

- Place your thumb at the bottom of your thumb
- As you trace up, breathe in
- Trace down, breathe out
- Trace and breathe all the way to the base of the pinky and then back to the thumb
